Assessment of exemplar

Compare the exemplar to your completed activity. Review your work using each of the criteria in the exemplar. *What did you do well? Where can you improve?* Use your answers to these questions to guide you as you continue to progress through the course.

Note: *The exemplar represents one possible way to complete the activity. Yours will likely differ in certain ways. What's important is that your activity uses the stakeholder feedback to make actionable recommendations to improve the data lifecycle plan at each stage.*

Your completed activity should include the following:

- Each business question on the **Planning** slide should be aligned to an appropriate objective.
- Each business question/objective pairing on the **Planning** slide should have a recommendation that describes the data needed to meet the objective.
- The **Capture Data Slide** should include three recommendations based on the stakeholder feedback.

- The **Manage, Analyze, Archive and Destroy Data** slide should include three recommendations based on the stakeholder feedback.
